

Zipper Box Pouch Supply list

- Sewing machine with new needle
- Machine accessories
- Optional zipper foot
- Long pins or sewing clips
- Friction pen or another marking tool
- Sewing scissors
- Paper scissors for cutting zipper ends
- Rotary mat, cutter and ruler

I suggest bringing fabrics for more than one zipper pouch as you probably have time to complete two pouches, maybe three.

For each pouch you will need:

- Two contrasting fat quarters or contrasting fabrics
- Thread to match what will be the lining
- Batting (This is a great project to use up smaller pieces by stitching together)
- Optional one-sided fusible or fusible fleece
- 16" zipper

I needed to make 40 zipper pouches for an event a few months ago. YouTube became my very good friend as I stitched together several versions. This pouch is my version that turned out to be the most time-efficient method and, I think, cute at the same time.

I will provide:

- Sewing clips for you to try if you don't have them already
- Teflon pressing sheet if you are fusing batting
- Some cut pieces of Soft and Stable
